

ASHES TO ALWAYS

Verse 1

*We built a fire, bright and strong,
Thought we'd be burning all lifelong.
But the winds of time, they blew so cold,
Left a love in ashes, stories untold.*

Pre-Chorus

*But from the embers, I see a light,
A spark of hope in the dead of night.
This heart of mine, it won't let go,
From ashes, our love still glows.*

Chorus

*Ashes to always, hearts rise again,
What we thought was over is where we begin.
Through smoke and shadows, we find the way,
Ashes to always, Love here to stay.*

Verse 2

*We made mistakes, we let it fade,
But love's a fire that won't be swayed.
Through every tear and every fight,
I still see forever in your eyes tonight.*

Pre-Chorus

*The flame still lingers, it won't die out,
Love's a truth I can't live without.
I'll stoke the fire, I'll hold on tight,
From ashes, we'll burn so bright.*

Chorus

*Ashes to always, hearts rise again,
What we thought was over is where we begin.
Through smoke and shadows, we find the way,
Ashes to always, love here to stay.*

Bridge

*Even when the skies turn gray,
And all the colors fade away,
Love's a phoenix, rising high,
Forever burning, it'll never die.*

Chorus

*Ashes to always, hearts rise again,
What we thought was over is where we begin.
Through smoke and shadows, we find the way,
Ashes to always, love here to stay.*

Outro

*Ashes to always, this flame is true,
Through the fire, I found you.
From broken pieces, we've paved our way,
Ashes to always, here we'll stay.*
