

# RELENTLESS SHADOW

## Verse 1

*I remember that Sunday,  
the smell of fresh pie  
You smelled so sweetly,  
everything felt right  
But then came the whispers,  
a chill in the air  
A shadow in the corner,  
lurking with a stare*

## Pre-Chorus 1

*He's just a dark figure,  
no face to be found  
But he's haunting my dreams,  
keeping me spellbound*

## Chorus

*Oh, shadows in the back room,  
won't you let me be  
You're feeding off our love,  
turn it's sweet to misery  
We're fighting over nothing,  
lost in your game  
We're cursed by your presence,  
can't remember my name*

## Verse 2

*Oh I've been an empath,  
feeling hearts from afar  
But now I can't tell where you end and he starts  
My husband's got that fire,  
ignited by despair  
While I'm left to wonder  
how to cleanse this air*

## Pre-Chorus 2

*We laughed in that kitchen,  
the scent of warm bread  
Now it's just the shadows,  
filling me with dread*

## Chorus

*Oh, shadows in the back room,  
won't you let me be  
You're feeding off our love,  
turn it's sweet to misery  
We're fighting over nothing,  
lost in your game  
We're cursed by your presence,  
can't remember my name*

## Verse 3

*I've trapped you in that room,  
but you won't let go  
I can feel your darkness,  
it runs deep in my soul*

*Oh, the whispers keep arising,  
telling me I'm wrong  
But I'll keep on fighting,  
I know where I belong*

## Verse 4

*Remember those evenings,  
we danced in the light  
Now all that we have,  
is another ending night*

*I taste the bitterness,  
it lingers on my tongue  
A love that was so sweet,  
now feels forever young*

## PAGE 2

### **Bridge**

*You feed on our spirit,  
you turn joy into tears  
But I won't give you power,  
I'll face all my fears*

### **Chorus**

*Oh, shadows in the back room,  
won't you let me be  
You're feeding off our love,  
turn it's sweet to misery  
We're fighting over nothing,  
lost in your game  
We're cursed by your presence,  
can't remember my name*

### **Outro**

*So I'll summon my courage,  
drag you into the light  
We'll break every chain  
that binds us in this fight  
No more shadows lurking,  
no more heartache and gloom  
I'll reclaim my spirit,  
and banish you from this room*
